SUMMARY

Senior Software Engineering student with 3+ years of freelance experience in full-stack development, data analysis, and AI engineering. Hands-on experience with microservices architecture (Kafka, Kong, Docker, Kubernetes) from a software engineering internship at Alef Education, and a first-place win in a university-wide research and innovation competition for an AI accessibility system.

EDUCATION

Abu Dhabi University

Bachelor of Science in Software Engineering; GPA: 3.96/4.00

- Recipient of multiple Certificates of Excellence for outstanding academic performance
- Named to the Dean's List in multiple semesters for maintaining a top-tier GPA

Abu Dhabi, UAE

Aug 2023 – Expected May 2027

EXPERIENCE

Software Engineer Intern

Jan 2026 – Mar 2026

Alef Education

Abu Dhabi, UAE

- Contributed to real-world, production-grade features within a large-scale, microservices-based ed-tech platform
- Gained hands-on experience with Apache Kafka for event-driven, asynchronous service communication
- Worked with Kong API Gateway to manage service routing, authentication, and traffic control
- Collaborated cross-functionally in an Agile/Scrum team through sprint planning, code reviews, and daily stand-ups

Freelance AI Developer

Jul 2025 – Jul 2026

Key2Enable

Remote

- Designed and built **ClearSpeech**, an AI-powered speech therapy platform helping users with speech impairments practice pronunciation
- Developed and integrated machine learning models for speech analysis and real-time feedback generation
- Owned the project end-to-end as sole developer, from requirements through deployment and delivery

Course Assistant

Jan 2024 – Present

Abu Dhabi University

Abu Dhabi, UAE

- Led exam-revision and problem-solving sessions for Calculus, Physics, and Programming courses
- Provided one-on-one and small-group tutoring, helping struggling students strengthen core concepts and improve GPA
- Collaborated with faculty to design supplementary practice materials aligned with course objectives

Freelance Full-Stack Developer, Data Analyst & AI Developer

2022 – Present

Self-Employed

Remote

- Delivered full-stack web/mobile apps, data analysis solutions, and AI tools for clients across multiple industries
- Built responsive front-ends (React, React Native, Flutter) and scalable back-end services (Java, Python)
- Performed data cleaning, analysis, and visualization to help clients derive actionable business insights

PROJECTS

NAVIS AI | 1st Place, Undergraduate Research & Innovation Competition – Abu Dhabi University

- Designed an AI-powered assistive system helping visually impaired individuals navigate independently
- Won 1st place among competing undergraduate research teams for technical innovation and real-world impact

UAE Connect | Distributed Systems Course Project

- Designed and implemented an end-to-end microservices-based system covering service discovery, inter-service communication, and API management
- Integrated Apache Kafka for asynchronous messaging and Kong API Gateway for centralized routing and authentication
- Containerized services with Docker and orchestrated deployment via Kubernetes for a scalable, production-style setup

LEADERSHIP & VOLUNTEERING

Sharjah Volunteer Award – Recognized for sustained community impact through on-campus and off-campus volunteer initiatives

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Kotlin, HTML, CSS

Frameworks & Libraries: React, React Native, Flutter

Tools & Technologies: Apache Kafka, Kong API Gateway, Docker, Kubernetes, Microservices Architecture, REST APIs, Git, Agile/Scrum

Focus Areas: Full-Stack Development, Data Analysis, Artificial Intelligence & Machine Learning
